Caique Nerivan Rodrigues Santos

Full Stack Developer · Node.js, React, React Native and TypeScript

São Paulo, Brazil · caiquenerivansantos@gmail.com
nerivan.site · github.com/caiquenerivan · linkedin.com/in/caiquenerivan

SUMMARY

Full stack developer with over 4 years of experience building web and mobile applications with TypeScript, React, React Native and Node.js. Experienced in microservices architecture, REST APIs, authentication and deployment with Docker and CI/CD. Before moving into tech, I spent nine years in finance and legal departments, which gives me a solid view of business and process.

EXPERIENCE

Freelance Full Stack Developer

2022 – present

- Built custom landing pages, e-commerce stores and corporate websites, from layout to launch, using React, Spring Boot, HTML5 and CSS3.
- Created Personal Trainr, a web and mobile platform running in production (details below).
- Integrated third-party REST APIs and implemented cloud back ends on AWS.

Administrative Assistant · Afabesp

2013 – 2022

- Worked in the finance and legal departments: accounts payable and receivable, cash flow control, vacation and severance payments.
- Analyzed and organized administrative processes.

FEATURED PROJECT

Personal Trainr

personaltrainr.club

Platform for personal trainers to build workouts and follow their clients · github.com/caiquenerivan/personal-trainr

- Monorepo (Turborepo) with an API gateway plus authentication and workout microservices in Node.js, Express, Prisma and PostgreSQL.
- React web app and React Native (Expo) mobile app, sharing types and rules in TypeScript.
- Authentication with JWT and refresh tokens, email verification, two-factor authentication and Google sign-in.
- Subscriptions with recurring billing through Asaas, and push notifications.
- Automated tests with Vitest, Docker environment and CI/CD with GitHub Actions.
